Workshops (werkplaatsen)

Workshops play an important role at ArtEZ. The workshops are run by technical instructors and workshop assistants. They guide students during the creation of their work. They think along in their creative process and contribute technical solutions.

In the Rietveld building, side wing and second floor, you will find the following workshops: Computer workshop, the Photography studio, Fashion Atelier, Paper shop, Ceramics and Liquid plastic workshop, Graphic Art and the Silkscreen & Printing workshop. The Photography workshop is located in the basement and can be accessed via the entrance to the underground Theatrum.

Oude Kraan 26 houses the Digital, Wood, Metal, Shoes & Leather workshops and the Central shop, Hard- and software Lab and Audiovisual workshop.
